USE THE KNOW-HOW OF AN INTERNATIONAL LAW FIRM

Investing in properties, state bonds or companies unlocks the potential for high net-worth personalities to become a Global Resident. De Micco & Friends prepared the way for this highest flexibility to hundreds individuals and families in the past 15 years. As an international law firm we understand the strategic importance behind the Global Residency philosophy and we deliver the concepts, the knowledge and our international network to empower high net worth individuals to join this opportunity.

How it works

A number of European countries offer Golden Visas through investment in real estate, state bonds or companies. The Golden Visa program for Spain, Portugal, Malta, Greece and Cyprus are the most prominent.

Bulgaria and Hungary offer residency and citizenship by investments in government bonds.

As a consequence of the growth and proliferation of investor visa programs, in recent years our Global Family Office clients now have several options to consider for residency and citizenship in Europe and other countries.

In addition a number of Caribbean countries, namely, St. Kitts, Antigua, Grenada and Dominica offer citizenship through investment and a second passport providing travel access to many visa free countries.

Global Residences are those personalities who have the power to control their life by joining a selected place and who are capable to provide a safe and sustainable future to their families.

Programs start from just $200,000 plus the related costs.

All programs are different. There are significant differences regarding **investment volume**, **family qualification**, **permanent residency**, **minimum stay**, **citizenship** and **passports**.

De Micco & Friend offers an analysis and individual advice, to find the best program for their clients.

Find the right place for you and your family.

THE PROGRAMS

Golden visa programs from different EU countries grant immediate residency visa or even citizenship directly to foreign investors against a lump sum investment, no less than €250,000 in real estate, or in business & commerce. Usually there is no requirement to live in the country .

The main criteria for destinations:

- Costs: investment volume and fees
- Time: time for the application and to get a citizenship
- Mobility: where you can travel
- Location: live quality, advantages, economic and social situation at the destinations
